Action Taken Report on Student Feedback 2020-21 S.S. Survey

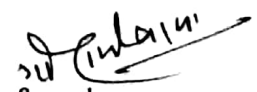

As an internal quality assurance measure an IQAC meeting was held on 29/04/2022, in which Program outcomes and results of online teaching-learning in the context of Covid situation were discussed on the basis of student feedback collected in student satisfaction survey 2020-21. Suggestions given by the IQAC were as follows :

- Majority students found online mode effective, but with constraints of network and time.
- Lectures delivered by the teachers could be made available on You Tube / Website.
- There is a huge technological facility lag, that needs to be urgently addressed.
- Lack of language skills in students are a major hindrance in comprehension & expression.
- Objective test pattern is more compatible with online teaching-learning.
- Some Mechanism of writing assignments is also necessary for testing domain knowledge.
- Teachers should acquire necessary skills in imparting online classes and study material.

Circular

“This is being advised to adopt and practise a mixed medium of instruction i.e. Hindi and English both as the medium of instruction in teaching-learning. Furthermore, there is a widespread need of enhancing the linguistic competency of students in general. Therefore, all the Departments are advised to organize speech and essay competetions and also student presentation based seminars through their Departmental Councils and other platforms in order to address the Language & Expression hindrances in students’ learning process. Teachers are also advised to make available their lectures on online platforms, as much as possible.”
