- A modern Auditorium with sitting capacity of 300 persons for Performances & Seminars.
- Development of Playground for outdoor games.
- Moving completely towards solar energy
- Developing a calm, quiet and meditative campus environment rich with flora and fauna.

Institutional Development Plan (Contd.) (Innovation)

Establishment of A Himalayan Study and Research Centre :

- **Vision is to develop it as a collaborative, multidisciplinary Research Centre.**
- Explorations in Himalayan Geology, Geography and Archaeology.
- Research in History, Languages and Cultures of Himalayan Societies.
- Research in Folklores, Folkliterature and Folkways of Himalayan Tribes.
- Research in Spiritual & Relegious Traditions of Himalayas.
- Research in the Literature written on Himalayas.
- Research in Traditional Food habits of Himalayas and their Significance.
- Explorations in Medicinal Plants and Herbs of Himalayas.
- Research in Traditional Healing & Naturopathy Practices of Himalayas.
- Explorations in Other Beliefs and Practices of Himalayan People.
- Establishment of Archive for Himalayan Manuscripts conservation.
- Establishment of A Himalayan Ethno-historical Museum.

Research, Innovation and Extension

- A Computer Lab is required for students' P.G. level Dissertations and Project works as well as for Individual Research works carried out by the faculty. In near future, Re-opening of Ph.D. supervision by University is highly probable, as almost 90% of the faculty is Ph.D. Degree holder.
- Purchase of Quality Journals and E-Journals is required for facilitating growth in Quality research work of Faculty, which is directly linked to the quality in substance of teaching.
- Establishment of A Himalayan Study and Research Centre will be an Innovative step in the Distinctiveness of the Institution in future. Developing the centre will require various kinds of Technical assistance. A separate Building with multiple sub-centres for recording facilities, recordkeeping facilities, Documentation, manuscripts conservation, Archive and Ethno-historical Museum will be needed. Knowledge created will be used in extending services to society s.a. Herbal Medicines and diets, Innovative healing Practices, Preservation of tradition and Culture and building society self-reflective.

Student Support, Progress

- Modern Labs for practical subjects are required for facilitation of students in practicals and lab assignments, as Lab Infrastructure is not sufficient enough to cater even undergraduate level only, while the requirement is of P.G. level Instrumentation facility.
- A Language Laboratory is required to assist and improve upon communication and expression skills of students. Student Feedback has shown a consistent language lag as hindrance in students' learning.
- A Central Library with a separate reading section and separate reference section is the first and foremost need in developing academic culture among students.
- Construction of Academic Blocks is required for providing proper classroom facility.
- An Auditorium is required for cultural performances and festivals of students.
- Developing the Playground is necessary to facilitate the students' sports and Sports culture in the Campus.
